

## Comments from Hewlett's Creek Public Meeting August 27, 2007

Following are all of the comments from the comment forms submitted after the public meeting on August 27:

- "Meeting was well-planned and conducted. Informative."
- "Every cleanout cap that has been hit by a lawnmower or is broken lets stormwater in. I know of two in my neighbors' yards. Addressing this problem will greatly reduce the inflow of rain water."
- "Thank you for the informational meeting. Please continue to inform us and prevent spills."
- "Odor problems still exist. Please consider helping the creek after repairs are made. Anything that helps Hewlett's Creek – please do it. Thank you for the meeting."
- "Very organized meeting. No suggestions."
- "Restrict blocking Pine Grove during morning peak. Use electronic message boards to inform of lane closures at possibly Oleander/Pine Grove, Greenville Loop, etc." (*Electronic message boards will be used.*)

*The City appreciates its citizens for their involvement at the public meeting and is always eager to receive comments from the public.*
